

Only suitable for replacing the same reference

APPLICATIONS

Integrated voltage indicator (V.P.I.S.) on M.V. cubicles by being installed on the capacitive dividers. Signaling 3 diodes. Attachement : male/female plugs.

CARACTERISTICS

- **Compliant to IEC-61958.**
- **Indicates the presence of voltage by light-emitting diodes and allows phase matching with the comparator MX-404.**
- **connection set included.**
- **Dimensions : 130 x 30 mm.**
- **Weight : 85 g.**
